The image shows a software interface for production order management. The top window displays a list of production orders with columns for status, product code, product name, quantity, and material code. A red arrow points to a search icon, and a blue button labeled '导出' (Export) is visible. A yellow arrow points from the '导出' button to an Excel spreadsheet window. The Excel window shows a table with columns for internal order number, production order status, product code, product name, specifications, quantity, and material code. The data in the Excel table is as follows:
